We did a general approval to hire someone from overseas to do data entry for when Gloria retires. Gloria and a few others have vouched for this individual/company to be competent and the price we pay Gloria for the bookkeeping will be the same as with this new person.

We did not have enough people to vote on this. We all agree who was at the meeting today that this is okay since nothing major is changing, only Gloria is planning to retire in the near future and we need to have a bookkeeper and data entry.
